About the Company

Albert Einstein once said that everybody is a genius but if you judge a fish by its ability to climb a tree, it will believe its whole life thinking that it is stupid. Today our education system resembles these words. We have

updated bullock carts to Lamborghinis, Telephones to iPhones, Candles to Electric lamps but our black boards have just changed to green and white. THATS IT? A recent scientific study showed that almost 80% students struggle to remember the things that they were taught just because they are unable to imaging or practically do them. If we have used technology in almost everything we do why are we skipping something as important as Education? Well, Thats what we are trying to change. We have developed Video + Audio teaching to an extent where it is not only easy for the students to learn / understand but delightful & engrossing. Through this teaching technique we will teach you languages from basic to expert level minimising the need & dependancy of a teacher. Everything will be taught to you by videos and the Animojies.Global Dialect wants you to have the feel as if you are not entering a classroom but a cinema hall which is playing your favourite movie. It's time that we change how things are done and we are starting with the education system.

-  **All the courses are certified** and an exam is conducted 3 times through out the course with a final exam at the end of the course which decides to promote the student to the next level or not.
-  **Fees are** to be paid by the students separately and then a portion of it will be divided with the college at the end of course.

TEACHING TECHNIQUE

We teach more with the help of videos and Animojies and less with the black boards and teachers. Let's assume it's your 1st day of learning a language.

1. **Trainer's Briefing** : A language expert who handle the class will tell you, what exactly are you going to learn today and how would it be beneficial.
2. **Video teaching** : The trainer will then start a video on the projector (you can also watch the videos on the app). The videos are shot in such a way that it not only engages you but it also teaches you with animations / visuals / texts / pictures for an even better understanding.

3. **Doubts solving session:** After the video teaching is over, your language expert will then solve all the doubts and queries that you might have after watching the videos (You can also Whatsapp / call if you aren't present in the classroom.)

4. **Indoor & Outdoor activities:** After the doubt solving session is over, the trainer will be playing indoor and outdoor activities with the candidates and written as well as speaking activities will also be conducted which will ensure overall and thorough learning.

That is how we ensure an overall and sound learning of the student.
